### PROTECTION MASKS DISTRIBUTION SYSTEM

April, 2nd 2020

After considering the COVID-19 municipal monitoring commission a protection masks distribution for the town, Bigastro. Following the RD462/2020 of April 14<sup>th</sup> and RDL 10/2020 about the limitation mobility of residents to prevent the virus propagation, the home delivery of the protection masks has been decided as the best option with the current law.

The recommendations establish to avoid the virus propagation, the residents must stay at home, with exception of essential workers, and the residents going out just to buy food and medicines, attend to the needs of their pets and other urgent causes.

The administration must to protect the residents to avoid risk situations, for this reason the municipal authorised staff deliver the protection mask in their own homes.

When the municipal authorised staff arrive with the protection mask at home:

- Hand delivery to the home
- One protection mask per adult. The children shouldn't leave home during the Cononavirus (COVID-19) Health Alert, for this reason, the protection mask delivered are just per adult.
- The protection mask can be washed and used more times.
- Only if the residents need replacement of the protection masks you can contact us by WhatsApp of this phone number 636 10 73 71 with your name and your address.
- The availability of protection mask is limited, the responsible use is very important. Mask should be washed and disinfected with neutral soap (no with bleach).
- The distribution will be daily and depending on the availability of masks during the Cononavirus (COVID-19) Health Alert.
